Attachments: [Smoky Canyon FSTM2 EPA Comments with attachments 7-20-2020.pdf](#)

Hi Art,
Attached are EPA's comments on FSTM2. This includes a comment/recommendation to consider an additional alternative not currently included in the document. I realize this usually would have been brought up in FSTM1, but we now have input from Steve Rock and wanted to pass that along to ensure the vegetation ET options are completely considered. Please let me know if you have any questions or want to set up a call to discuss.
Thanks for your patience on these comments - I really appreciate it.
Hope you and your family are doing well! Best,
Jennifer
